The company is having its registered at Building No. XVII/1103 at Sarayu Arcade Satrapadi, Kanjikode, Palakkad - 678 621. The shares of the company are listed on the BSE Limited.

#### 2. SIGNIFICANT ACCOUNTING POLICIES:

#### A. Basis of Preparation

Financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

The Financial statements are presented in INR.

#### B. Use of estimates, assumptions and judgements

The preparation of the standalone financial statements in conformity with Ind AS requires the management to make estimates, judgements and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the standalone financial statements and the reported amounts of revenues and expenses for the year reported.

#### C. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, considering contractually defined terms of payment.

Revenues from sale is recognized on transfer of significant risks and rewards where it is probable that economic benefits will flow to the Company and there is neither continuing managerial involvement nor effective control over the goods sold.

Interest income is recognized as it accrues in the statement of profit and loss using effective interest rate method.

#### D. Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

#### E. Retirement and other employee benefits

Short term employee's benefits are recognized as an expense at the undiscounted amount in the Profit and Loss account for the year in which related services rendered by the employees to the company.

The company has long term defined benefit plans of which the company has not been obtained the actuarial valuation. However, these benefits are provided in financial statement on payment basis.

#### F. Income Taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### G. Provisions and Contingent Liabilities

A provision is recognized when an enterprise has a present obligation (legal or constructive) as result of past event and it is probable that an outflow embodying economic benefits of resources will be required to settle a reliably assessable obligation. Provisions are determined based on best estimate required to settle each obligation at each balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting obligations under a contract exceed the economic benefits expected to be received, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

#### H. Earnings Per Share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date.

The diluted potential equity shares have been arrived at, assuming that the proceeds receivable were based on shares having been issued at the average market value of the outstanding shares. In computing dilutive earnings per share, only potential equity shares that are dilutive and that would, if issued, either reduce future earnings per share or increase loss per share, are included.

#### I. Inventories

Inventory comprises of traded goods and is measured at lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less estimated cost necessary to make the sale.

#### J. Government Grants

The Company recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of profit and loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.
